

SHRI BHAIRAVNATH NISARG MANDAL'S
MAULI NURSING COLLEGE HATTA
At.Hatta, Tq.Basmath, Dist.Hingoli.

5.1.4: The Institution has an active international student cell to facilitate study in India program etc.,

Mauli has a well developed International student cell that consistently strives to foster partnerships with many institutions. The primary objective of the cell is to promote internationalisation and diversity within the Institute. Additionally, it aims to provide students and staff with chances to actively engage and enhance their international proficiency. The purpose of this comprehensive strategy is to cultivate our pupils into global citizens. The International Relations office is accountable for the comprehensive international strategy. The international relations office has a comprehensive and interconnected communication network that spans across all institutions. The cell engages in many initiatives in cooperation with other universities. Here are a few examples:

1. Commencing a conversation with many foreign universities.
2. To determine the potential for cooperation
3. Proposal for student and faculty exchange programme
4. Collaborative research endeavours
5. Proposal for an immersion programme

Currently, our college has participated in several conversations for different overseas partnerships; nevertheless, these discussions have not advanced beyond the first stage. The programme aimed to comprehend the nursing education system in Australia and ascertain potential chances for future cooperation between students and professors. Regarding the enrollment of foreign students in our nursing programme, the institution gets many inquiries, however we have not yet admitted any overseas students.
